

# Industeel, ArcelorMittal Group

Industeel, a company of the ArcelorMittal Group, has a long tradition of expertise in the production of high quality special steel plates and prefabricated products for industrial equipment.

Industeel offers you a complete dimensional range of plates, formed and profile-cut pieces.

Industeel's special grades are designed to withstand stringent service conditions, such as highly corrosive environments, high pressure service, highly abrasive conditions, etc.

Industeel looks to develop specific ranges of high quality products known through their Trademarks.

Industeel works as a partner with customers, designers and end-users with the aim of:

- improving the service performance of our products, in order to reduce life-cycle costs without impairing safety,
- providing a better service to our customers, to reduce their own costs.

Industeel products serve diversified markets:

- desalination, potable water
- shipbuilding, chemical tankers
- oil and gas, offshore
- chemical, petrochemical, process industries
- transportation and storage (cryogenic)
- pulp and paper
- power stations, including pollution control
- renewables
- plastic injection

- earth moving, quarries and mines
- civil and military protection

Industeel relies on its world-renowned research center (CRMC) to achieve these goals. CRMC ensures a technical assistance to help our customers to take full advantage of selecting INDUSTEEL grades by optimizing:

- materials selection,
- application engineering in corrosion resistant, abrasion resistant, pressure vessel and tool steels

The welding and fabrication assistance maintain the performance of materials in-service through metallurgical expertise, filler metal selection and testing covering:

- Special stainless steels, duplex and alloys
- Abrasion resistant steels
- High-strength steels
- High pressure vessel design and materials selection, including safety code conformity

Through innovation, materials development and technical assistance, the CRMC guarantees to our customers our commitment to :

- Continuously improve our product quality and performance

- Meet their safety and fitness for service requirements
- Provide materials solutions with the lowest available life cycle cost
- Maintain our capacity to jointly develop products meeting their future materials needs

## Industeel

### ArcelorMittal

#### Company details:

Name: Industeel, ArcelorMittal Group  
 Address: 56, rue Clemenceau – BP 19, Le Creusot  
 Postcode: F-71201  
 Country: France  
 Phone: 0033 3 85 80 52 57  
 Fax: 0033 3 85 80 54 11  
 Email: jean-christophe.gagnepain@arcelormittal.com  
 Website: www.industeel.info

Address: 266, rue de Châtelet, Charleroi  
 Postcode: B-6030  
 Country: Belgium  
 Phone: +32 71 44 19 37  
 Fax: +32 71 44 19 56  
 Email: yves.boudart@arcelormittal.com
