# Table of Contents

## BOOK 1

2 Steering Committee  
3 Preface  
5 Summary  

7 **Plenary Sessions**  
9 Application of duplex stainless steel in the chemical process industry  
G. Notten  
17 Welding duplex and superduplex stainless steel. An update of the guide for industry  
L. van Nassau, H. Meelker, F. Neessen, J. Hilkes  
29 Why and where duplex stainless steels  
J. Charles  
43 Duplex stainless steel weld metals – effects of secondary phases  
L. Karlsson  
59 Corrosion of duplex stainless steels in seawater  
B. Wallén  
73 The physical metallurgy of duplex stainless steels  
J-O. Nilsson  
83 Performance of duplex stainless steels in hydrogen sulphide-containing environments  
L.M. Smith, C.M. Fowler  
95 Application of duplex stainless steel in the offshore industry  
M. Tystad  
101 Procurement, logistics and construction of duplex stainless steel piping for the NAM UGS Grijpskerk project  
D.B. Sauer  

## 115 Fabrication/Manufacturing  

117 Production of heavy section duplex stainless steel forgings with the assistance of micromechanical modelling  
G. Hochörtler, G. Zeiler, F.D. Fischer, W. Daves  
123 The utilisation of longitudinally electric fusion welded super duplex stainless steel linepipe for sub-sea flowline applications using the ‘reel’ fabrication and installation technique  
137 Metal surface treatment of duplex stainless steel  
G.J.A.A. Koolhaas, W.R. Maas  
141 Qualification of suppliers. Experiences from a qualification programme  
K.A. Johansson  
147 Heavy section duplex and super-duplex stainless steels forgings for use in the oil and gas industry  
J.M. Lardon, R. Cozar  
159 Experience in fabrication of large tanks from austenitic-ferritic steel of the 21-6-2 type  
K.A. Yushchenko, Yu.N. Kakhovsky, A.K. Avdeeva, G.V. Fadeeva  
163 Heat treatment of X2CrNiMoCuN 25.06.03 super duplex steel. Influence on characteristics and microstructure. Evidence of preprecipitation stages  
F. Cortial, A. Buchon, F. Danoix, M. Hedin  
175 Tool performance in continuous cutting of duplex stainless steel  
G. Pellegrini, G. Di Caprio, R. Pacagnella  
181 Machinability of SANMAC SAF 2205  
Å. Roos

</table>
357 Impact properties and susceptibility to solidification cracking of the weld in 22 Cr
duplex stainless steel

369 Welding tests on stainless steel with the Paton A-TIG method
J. Eriksson, H. Limu, N.E. Hannerz, M.M. Savitskii, D.V. Kovalenko

377 Pitting corrosion and strength of butt resistance welded stainless wires
N.E. Hannerz, H. Limu

387 Fracture toughness of welded thick walled duplex stainless steels
E. Delleu, A. Dhooge

395 Computer control of dual arc seam welding of duplex stainless steel pipes on
continuous train
A.V. Maloletkov, R.A. Perkovski, E.A. Gladkov

401 Effect of heat input on the microstructure of welded joints of duplex stainless
steel-SAF 2205
S.M. Khafagy, J.C. Suárez, F. Molleda

405 Precipitation of intermetallic phases and chromium nitride in simulated multipass
HAZ of duplex and super-duplex stainless steels
S.D. Brandi, A.J. Ramirez Lõndono

411 The corrosion resistance of simulated multipass welds of duplex and super-
duplex stainless steels
S.D. Brandi, J.C. Lippold, W. Lin

419 How to control hydrogen level in (super) duplex stainless steel weldments using
the GTAW or GMAW process

433 Welding superduplex stainless steels with Ni-base consumables. Optimising
toughness and corrosion resistance
L. Karlsson, S.L. Andersson, S. Rigdal

445 Effect of nitrogen on microstructure and pitting corrosion of hyperbaric plasma
keyhole welds of a duplex stainless steel
H. Hoffmeister, C. Eisenschmidt, G. Huisman

455 Experiences from using cored wire when welding super duplex stainless steels
R. Pedersen

465 Development in submerged arc welding of duplex and superduplex stainless
steels
T. Huhtala, L-E. Svensson, S. Rigdal

471 Hot tapping of 22% Cr duplex stainless steels
D.N. Noble, W.A. Bruce, R.N. Gunn

483 Fracture toughness of duplex and superduplex stainless steel welds
P.C. Gough, J.C.M. Farrar

491 Statistical system of prediction for duplex and super duplex welds properties
B. Bonnefois, P. Soulignac, J. Charles

499 Welding of super duplex steels: new efficient solutions for joining using Ni alloys
filler materials
B. Bonnefois, J. Charles, A. Bruyere, R. Cozar

509 Non-destructive testing of duplex welds
F.H. Dijkstra, J.A. de Raad

519 Full GMAW proved for CRA pipeline welding
A. Belloni

525 Nitrogen loss and its prevention during welding of Zeron 100, super duplex
stainless steel
G. Warburton, T. Healiss, C.J. Mockler

533 Strip cladding of duplex stainless steels. A summary of developments
J-P. Depessemier

545 Influence GMAW-welding on the properties of the weld metal of superduplex
materials
T. Wurm, A. Schram, U. Draugelates
557 Corrosion

559 Materials for wellhead equipment exposed to chlorinated & natural seawater
M.N. Maligas

565 Corrosion performance of duplex stainless steels for kraft pulp digesters application
J-P. Audouard

573 Presentation of corrosion data for end-users
A. Delblanc Bauer, U. Lundell, H. Eriksson

585 Ranking the resistance of duplex stainless steels to chloride-induced stress corrosion cracking
R.F.A. Jargelius-Pettersson, J. Linder, S. Hertzman

597 Performance of duplex stainless steel coupled to carbon steel in oilfield environments
A.J. Griffiths, A. Turnbull

607 Hydrogen embrittlement of duplex grades UNS S32750 and UNS S31803 in connection with cathodic protection in chloride solutions
P. Olsson, A. Delblanc Bauer, H. Eriksson

619 Corrosion behaviour of duplex stainless steels for concrete reinforcement application
M. Rosso, G. Melotti, D. Gyppaz, M. Comoglio

627 Crevice corrosion resistance of duplex stainless steels in chloride containing waters
R.M. Kain

639 The modified EPR-test: A new tool for examination of corrosion susceptibility of duplex stainless steels
S. Schultz, J. Göllner, K. Eick, P. Veit, I. Garz

649 Comparison of SCC behaviour in hot caustic solutions of duplex and austenitic stainless steels
G. Rondelli, B. Vicentini, E. Sivieri

657 Effect of sigma phase on the pitting corrosion of 22/5 duplex stainless steel
F. Elshawesh, N. Elahresh, A. Elhoud

661 Remote crevice corrosion testing of weld simulated duplex stainless steels
H. Hoffmeister, G. Lothongkum

671 Comparison of duplex and modified 13Cr martensitic stainless steels in high temperature, slightly sour conditions
M.J. Schofield, P. Felton

677 SSC resistance of HIPped P/M super duplex stainless steels in sour H2S environments
K. Saarinen, H. Hänninen, E. Hämäläinen, J. Limatainen

683 The influence of copper on the pitting corrosion of duplex stainless steels in saline and acid media
C.D.S. Tuck, L.F. Garfias-Mesias, J.M. Sykes

693 The use of temperature scan testing for the evaluation of stainless alloys
J. Heselmans

703 Service & Application

705 High-carbon ferritic-austenitic duplex-stainless steels for use in hydroabrasive media
F. Wischnowski, M. Pohl

713 New process centrifugal compressor in superduplex stainless steel
F. Millet, J-M. Pugnet, A. Franz, B. Bonnefois, J-M. Lardon

723 The world of duplex steels. Supply and demand of a heavy duty group of steels
M.A. Moll
