

BRISTOL METALS LLC (BRISMET)

Bristol Metals LLC, also known by our trademark name, BRISMET, has been an industry leader in nickel alloy, duplex, super duplex, 6 moly, stainless and titanium welded steel pipe manufacturing since 1941. We are located in Bristol, Tennessee.

BRISMET produces welded pipe sizes from ½" NPS to 144" NPS (21.34 mm to 3,657 mm) in diameter, up to 3" (76.2 mm) thick, and up to 60' (18.3m) in length. We have over 190,000 square feet (17,650 m²) of manufacturing facilities.

In addition to our wide range of product capabilities, we offer an extensive line of inventory. Brismet maintains inventories of 2205 duplex, 317L, 304/304L and 316/316L alloy welded pipe.

We maintain a stringent quality management system to ensure your project requirements are met and exceeded.

Bristol Metals LLC is ISO 9001:2008, PED 97/23/EC, NSF/ANSI – 61 – 372, ASME NPT and ASME U certified.

Our products are manufactured in accordance with many industry standards and specifications.

We offer a broad range of manufacturing services including, but not limited to:

forming, welding, cold working/
planishing, beveling, heat treatment,

surface finishing, end preparation and state-of-the art X-Ray capabilities.

The ability to provide in-house radiographic examination of longitudinal and circumferential welds allows us to ensure consistent on-site control of all manufactured pipe. As such, you can be assured that all materials produced by BRISMET will meet your project and product quality requirements.

All welders are qualified in accordance with ASME Code Section IX, and all NDT personnel are certified per ASNT-TC-1A.

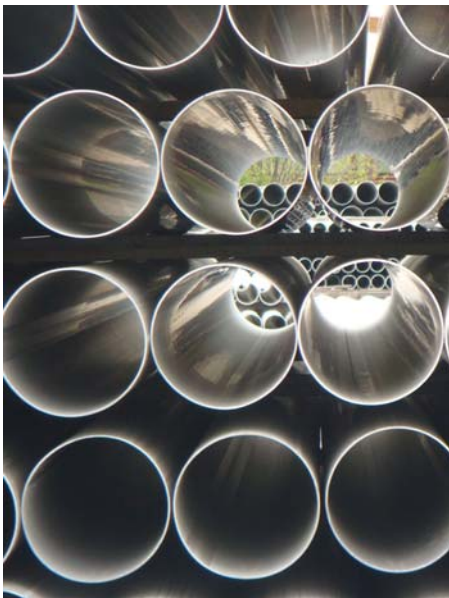

For almost 75 years, Bristol Metals LLC has built long-term relationships around the globe. We have supplied many global projects and maintain an approved vendor status with

major engineering and procurement companies.

BRISMET proudly serves the Chemical/ Petro-Chemical, Process Piping, Power, Oil & Gas, Mining, Food & Beverage, Pulp & Paper, Water/Wastewater, Pharmaceutical, OEM and various other markets.

We are committed to providing superior products and services to all of our customers. We are small enough to give your inquiry special attention and manage your critical delivery needs. We are large enough to be your cost-competitive single source for nickel alloy, duplex, super duplex, 6 moly, stainless and titanium welded steel pipe and tube.

Contact John Tidlow (x 4794) or Rusty Hagy (x 8612) for all of your piping needs.
