

# Chun & Vollerin Srl

Chun & Vollerin Srl operates on the national and international markets in the following fields:

Trading and processing of semi finished products in Nickel Alloys, Duplex and Superduplex Alloys used in special environments such as high temperatures and high corrosion. In our warehouse you can find ready from stock plates, sheets, bars, tubes, pipes, strip and coils for being processed to final required sizes and dimensions or to be delivered to your premises in short time.

Chun & Vollerin is located in Buccinasco, via Veneto 11 (Milan - Italy), where our semi finished products in Nickel, Duplex, Superduplex and Copper Nickel alloys like bars, plates, sheets, tubes, strip are stored, cut to dimensions and sold. As an Agent of major European Groups we are also able to supply sheets, plates, discs, heat exchanger tubes in Copper Nickel alloys and Aluminium Brass.

## Warehouse and Service Center

After many years of activity the material in the warehouse is easily handled and the work process is automatic. This organization allows us to guarantee an easy material tracking and a fast order processing.

As a Service Center we have the possibility to Plasma cut sheets and plates from sizes 1500x3000, 2000x4000, 1500x6000, 2000x6000 mm. and thickness from 1,5 to 35 mm. We can also cut and supply rings and discs to the required dimensions.

Thanks to our 5 sawbend machines we can cut bars from 8 to 520 mm. diameter in the required lengths.
