

C.P.S. Srl

C.P.S. Srl was founded in 1991 to provide tubes and piping products for the chemical, petrochemical and refinery industries.

In 24 years of history C.P.S. has evolved from a small family-run company to a leading stockist and distributor of heat exchanger tubes in carbon steel, low alloy, copper alloy and stainless steel, well known in Italy and even in Europe.

Over 400 tons are always in stock in order to satisfy urgent requests for heat exchanger tubes, supplied as plain, finned or U-bent, from short lengths to very long tubes however C.P.S. can even be competitive for longer lead-times requirements.

New investments are focused on increasing quantity, grades and dimensions of Stainless steel heat exchanger tubes along with instrumentation tubes in stock. All the products in stock and traded are certified according to EN 10214 3.1

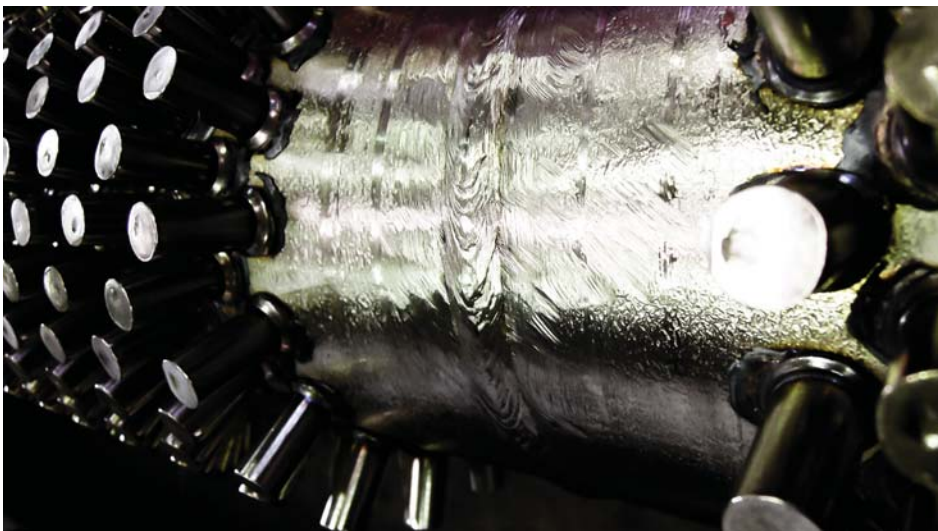

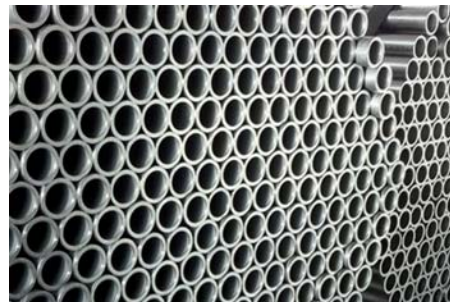

and manufactured by 1st quality mills fully approved by oil companies and engineering companies Worldwide. In order to fulfil customer requirements, QA in C.P.S. is trained to perform internal supplementary Tests such as PMI, Dye Penetrant Test, Ball Test, Magnetic Particle examinations and Ultrasonic Test and arrange all the Tests required with external laboratories in the area (Impact Test, HIC Test, Hot tensile test...). Third Party inspection can be performed with the most important notified bodies like TUV, SGS, LLRR and BVQI.

Products:

Heat Exchanger Tubes
Plain/Finned/U-bent/bimetal tubes
Instrumentation Tubes
Furnace Tubes
Plain/finned/Studded
Fittings and flanges

Qualities:

Carbon Steel
Alloy Steel
Stainless Steel
Copper Alloy
Nickel Alloy

Commercio Prodotti Siderurgici

Company details:
Name: C.P.S. Srl
Address: Via Tiberio Bianchi 5
Concorezzo
Postcode: I-20863
Country: Italy
