

FOMAS Group

FOMAS Group is an established global partner for equipment manufacturers, with dedicated engineering and production of open die forgings and seamless rolled rings in the widest variety of steels and alloys with the highest levels of quality and delivery service. Our decades of experience in the manufacturing of industrial components have made us an essential partner to our clients: our network of 10 production sites, strategically located across the globe (from America to Asia), allows the delivery of high integrity forgings to all our customers' worldwide locations with excellent lead times. All plants are equipped with state of the art process technology and our global steel sources are qualified and approved in order to optimize processes and materials, minimize costs and maximize product quality.

Added Value: our dedicated project management team, guarantees customized service and with the support of the engineering & R&D teams, we develop, for our strategic customers, co-design and innovative solutions offering a reliable partnership.

With this approach we deliver turnkey solutions: clad, coated & preassembled component maintaining our core strengths:

- Quality
- On time delivery
- Deep know how of material & process

Our capacity range is:
FORGINGS

max diameter: 5,500 mm
max length: 18,000 mm
max ingot: 125 ton

RINGS

max diameter: 7,000 mm
max length: 1,200 mm
max ring weight: 20 ton

Of course for all our components, a deep profiling is performed during forging, providing the following advantages:

- Better fibre flow pattern for improved mechanical properties
- Less raw materials employed
- Reduced machining process

Our outstanding experience is built on the deep knowledge of a wide range of steels:

With our in house ESR we are qualified on the following steel grades
Duplex & Superduplex/ Austenitic/
Superaustenitics/ Martensitic/ Ni/Cr
Based/Crip resistance Alloys
CRA (corrosion Resistant Alloys)/
Aluminium /Titanium/Copper based alloys

With our equipment we are able to supply top quality ESR refined materials of almost all grades.

As an example among the qualified grades we can deliver:

- A182 F347/A182 F321
- Incoloy 800/800H;
- 17-4PH/15-5PH/ F6NM
- Cost E/Cost F/Cost FB2

WORLDWIDE PRODUCTION FACILITIES:

FOMAS INC USA
LA FOULERIE FRANCE
HOT ROLL ITALY
FOMAS ITALY
ASFO ITALY
BAY-FORGE INDIA
FOMAS DALIAN CHINA

Company details:

Name: FOMAS Group
Address: via Martiri della Liberazione 17
Osnago (LC)
Postcode: 23875
Country: Italy
