

GOKTURKLER

Founded in 1968, Gokturkler is one of the most established companies of the Turkish iron and steel industry. The company that has focused mainly on becoming a major importer and a stockist of stainless steel since the early 1990s, is today acknowledged as a trusted supplier that serves various industries. Gokturkler operates with a modern warehouse and service center in the Esenyurt region of Istanbul and supplies stainless steels in multiple forms.

PRODUCTS

Gokturkler's product portfolio consists of stainless steel Sheets, Coils, Round Bars, Squares, Hexagons, Flat Bars, Angles, Tubes, Pipes and Wires. AISI 304, 316L and 420 stainless steel round bars are available in stock for every size up to 350 mm. A wide range of 303 and 204Cu round bars are always stored in house ready to be shipped. Also AISI 304, 316L and 430 stainless steel coils and sheets from 0,40 mm to 20 mm are offered in 2B, 1D, BA, SB and 4N surface finishes.

SERVICES

For long products, Gokturkler offers bandsaw cutting for all sizes and grades. For flat products, cut to length service along with slitting, grinding and brushing is available. Also laser cutting and project designing services can be given when requested.
