

Hamel metaal b.v.

Your partner for Duplex, Titanium and High performance Alloys.

Continuous specialization in recent years has allowed Hamel to Achieve a strong growth with an associated programme of materials and services for a number of specific industries like Machining, Installation, (petro)chemical and offshore. The extensive product range of Hamel can be customized as required. Through intensive collaboration with prominent suppliers and manufacturers of top quality metals, Hamel has "virtual stocks" around the world in addition to its own extensive inventory. These products can often be delivered within 48 hours. Hamel is ISO 9001 certified and can deliver according to any desired standard and/or certification (NACE, NorSok, ASME, etc.)

If you need any information about materials or applications please contact one of our product-specialists.

Hamel Metaal is based in Almere and has been part of the MCB international group since 1991.

As a leading stock-holding wholesaler, we have been a supplier to the Dutch metal processing industry for nearly 80 years.
