

# HARALD PIHL

Having built up the family-owned business over the past century, Harald Pihl distributes the largest range of nickel, titanium and alloys in Europe. With products in all forms and most dimensions the company is able to supply their customers with materials without any unnecessary lead times. With an ever growing focus on the international market Harald Pihl's products are used in different productions all over the world. Today the company is represented right across Europe and with recently opened offices in both Norway and Poland the local presence is now greater than ever.

## Super-fast deliveries

Harald Pihl's specialty is very fast delivery times. All enquiries are answered within an hour and orders placed before lunch are shipped the same day. Furthermore, the company has embraced the latest technologies to stay ahead of the competition and become a 'one-stop-shop' for customers. The entire stock offering is listed on the company's website, available in 16 languages, which saves customers a lot of time as they can easily and quickly find the products they need in the materials and sizes required.

## Largest stock in Europe

Harald Pihl has a wide assortment of corrosion resistant alloys, heat resistant alloys, creep-resistant alloys, special alloys, stainless steel, titanium alloys, low melting point alloys, copper alloys, welding material, and refractory metals. The materials are available in most forms like wire, rod, sheets, plate, strip, tubes & pipes and in several dimensions. The diversity of the product range makes Harald Pihl able to supply almost every market. In addition, the company also offers their customer a number of value added services, such as sawing, shearing, and welding and cutting – laser, plasma and water jet.

## Maintaining an edge over competitors

Harald Pihl gained Aerospace EN9120 approval in June 2013. The company also supplies NORSOK M650 certified material in different grades of titanium. This is mainly used in the oil & gas industry for pipes, bars and fittings. Quality assurances such as NORSOK M650 and Aerospace EN9120, as well as Harald Pihl's long history and the highest credit ranking possible makes the company a reliable partner for new customers to start working with.
