

# Intoco

UK-based INTOCO offer the distribution of high quality special steels and alloys from stock.

We maintain good levels of stock in our "core" grades which are highly certified to current specifications (EN10204/3.1 & 3.2), and our extensive worldwide distribution network enables us to deliver by road, sea or air for quick delivery. Due to our stock levels we usually offer an immediate turnaround and our processing facility allows us to offer sawn / cut blanks to suit the client's specific size requirements as well as long bar.

All our material is sourced from reputable European Mills and is fully traceable back to the manufacturing Mill through our ISO 9001:2008 quality approval. We are committed to continual progression through the addition of product grades and sizes.

## Our range of special materials include:

*Super Austenitic Stainless Steel F44 / S31254 / 1.4547*

Round bar from diameter 10mm to diameter 408mm... sheet & plate to 80mm thick... pipe to 8" NB seamless... forgings... sawn blocks.

*Super Duplex Stainless Steel F55 / S32760 / 1.4501*

Round bar from diameter 10mm to diameter 560mm... sheet & plate to 100mm thick... pipe to 6" NB seamless... hollow bars... forgings & castings... forging billet.

*Super Duplex Stainless Steel F53 / S32750 / 1.4410*

Round bar from diameter 10mm to diameter 408mm... sheet & plate to 80mm thick... pipe to 6" NB seamless... hollow bars... forgings & castings... forging billet.

*Duplex Stainless Steel F51 / S31803 / 1.4462*

Round bar from diameter 10mm to diameter 560mm... sheet & plate to 100mm thick... pipe to 8" NB seamless... hollow bars... forgings & castings... forging billet.

*Precipitation Hardening Stainless Steel 17-4PH / 1.4542 / S17400*

Round bar from diameter 12.7mm to diameter 510mm... sheet & plate to 80mm thick... hollow bars... forgings... forging billet... sawn blocks.

*Martensitic Stainless Steel 440c / S44004 / 1.4125*

Round bar from diameter 6.4mm to diameter 460mm... hollow bars... sawn blocks.

We can also offer from UK stock: Stainless steels 304 / 316 / 310 / 321 / 329 Nickel Alloys 400 / k500 / 600 / 601 / 625 / 718 / 800 / 825 / 904L / C22 / C276

We also offer our manufacturing facility which is a highly advanced and competitive operation, offering part & finish machined products and fabrications to clients' specifications.
