

# L.C.M.A. S.A.

## The company

L.C.M.A. S.A. is the European manufacturer, processor and distributor of semi-finished products in C.P. titanium and Ti6Al4V titanium alloy for aeronautical, medical, industrial, petro-chemical, commercial and other applications. Having its premises in Luxembourg, the company is present on the market since 20 years. Quality, Experience, Flexibility, Short lead time and Competitive Prices are the core values of L.C.M.A. S.A. and those values have been steadily transferred to our business partners.

With the titanium market growing dynamically worldwide, L.C.M.A. S.A. became a reliable producer in the centre of Europe and is a part of a vertically-integrated international group of companies covering the entire supply chain, from titanium mining through to production of various titanium semi-finished products.

## Products and capabilities

The product portfolio of L.C.M.A. S.A. includes titanium bars, titanium ingots, titanium tubes, titanium sheets/plates, titanium blocks and titanium welding wire. The company offers a wide range of value added services like Band Sawing, Waterjet Cutting, CNC Turning services and Quality Controls to its customers.

Following its strategy to produce high quality products 100% in Europe, L.C.M.A. S.A. launched a new product

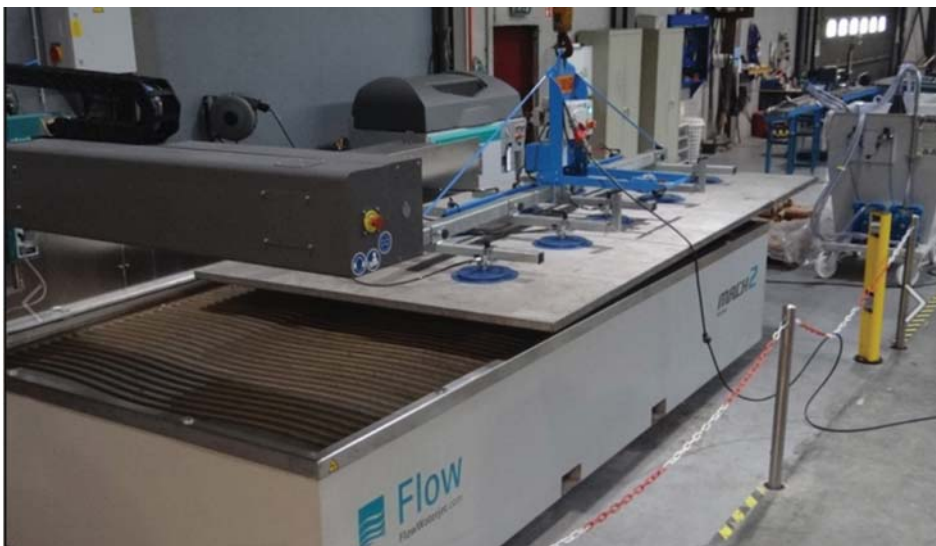

line in Grades 3 and 4 in 2014. The new production completes the portfolio of the company in Grades 1, 2, 3, 4, 5, 5 ELI in all possible diameters, according to international quality standards ISO 9001:2008 and EN9100:2009/AS9100:2009.

## Aims and goals

The leadership of L.C.M.A. S.A. foresees an ongoing increase of demand for the European production inside the E.U. and transforms consequently the company into a full-service provider, focusing onto on-time delivery, wide-range service and product portfolio and supply stability.

Being the European manufacturer, the strategic aim of L.C.M.A. S.A. is to fill the supply gap of titanium products in Europe!
