

Nichelcrom Acciai Inox S.p.A.

Nichelcrom Acciai Inox S.p.A. is one of the biggest stainless steel service centers in Europe.

Nichelcrom Acciai Inox S.p.A. has a steady stock capability of 50.000 tons of stainless steel in different types and sizes, spread over an area of approximately 50.000 covered square metres in the two owned plants in Via Trento 96/100 (products from coils) and Viale Rimembranze 62 (quarto plates), both located in Sesto San Giovanni (Milano - Italy).

Nichelcrom Acciai Inox S.p.A. with almost 80 employees, is in a position to distribute its products both on the National market, as well as in and outside Europe, reaching a sales volume of approximately 40.000 tons per year.

Nichelcrom Acciai Inox S.p.A. has an exhaustive range of machinery equipment,

enabling cut-to-size and surface treatments on both coils and plates.

Nichelcrom Acciai Inox S.p.A. started adopting a Quality Control System in 1996 (UNI EN ISO 9001:1994), while nowadays it fulfils the requirements of UNI EN ISO 9001:2008.

Nichelcrom Acciai Inox S.p.A. is also in a position to organize, upon customers' request, inspections and testing to be performed by most of the important international Institutions.
