

The Schulz Group of Companies

Manufacturing of first class piping components and supply of complete packages consisting of pipes, fittings, flanges and other piping components have made the Schulz Group of Companies to one of the leading project partners in the various industries.

Since Wilh. Schulz GmbH was established in 1945 the Schulz Group of Companies has developed one of the most complete production ranges for pipe and fittings worldwide in all kinds of alloys, stainless and higher alloyed steels.

Products & Services

The product range today consists of:

- Welded pipe from 8" N.B. to 42" O.D.
- Seamless pipe up to 16" O.D.
- Seamless BW pipe fittings from ½" NPS to 30" O.D. and 6" maximum wall, welded up to 96"
- Seamless metallurgical bonded clad pipes – SX-clad – from 6" to 14" up to schedule 160 wall and a whole range of cold formed SX-clad BW pipe fittings

- OCTG Casing, tubing and coupling stock up to 13-3/8" OD.
- Extrusion shapes for aerospace applications per AMS-2245 with a maximum fillet radius of 14", available in Titanium-, Nickel-, PH- and Stainless Steel Alloys.

Technical leadership and worldwide presence

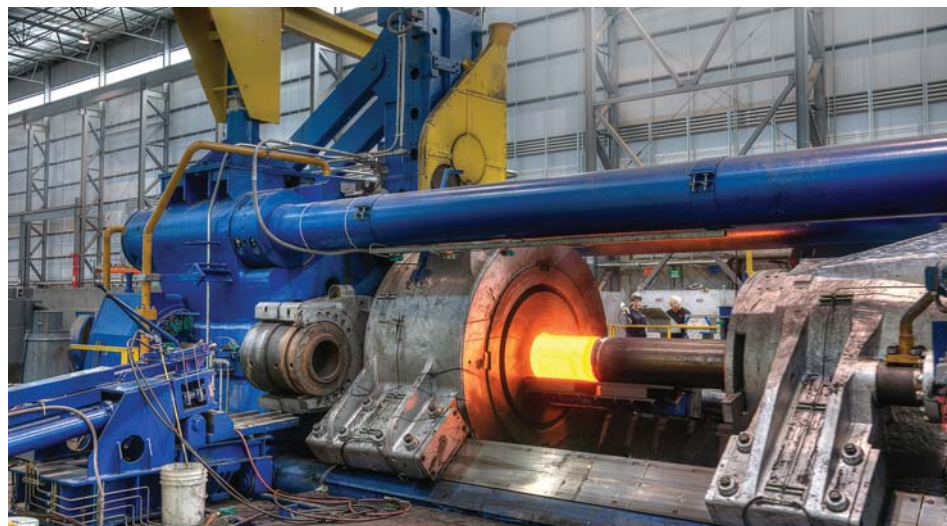

Today the name Schulz does not only stand for guaranteed first class quality and services, but also for its:

- Unique cold forming technology which allows conversion of pipe into fittings at room temperature even in wall thicknesses up to 6 inches.
- Innovative and ongoing technical in-house developments, based on more than 65 years of research and manufacturing experience.
- Efficiency in project handling by providing full package supplies to the client with seamless and welded pipe and butt weld fittings, forged fittings and flanges.
- Continuous expansion of manufacturing capacity and diversification of products which

turned a Krefeld based stainless steel fitting specialist into a successful Group of Companies, with an additional fitting plant and welded pipe mill in Brazil and a new state of the art seamless pipe plant SXP in Tunica, Mississippi, U.S.A..

- Worldwide presence, efficiently organized sales offices, service centers and material stocks in order to offer closest neighbourhood to customers on five continents.
- Internationally established product reputation supported by numerous certificates and approvals, issued for instance by the American ASME Authorization, by the German TÜV, the French Bureau VERITAS, the Swedish Inspecta Nuclear, the Canadian MCCR etc.

The passion of the entrepreneur Wilhelm Schulz to always provide highest achievable services to customers especially concerning product quality and performance reliability became an obligatory tradition for the entire Schulz Group grown since then – Passion for Piping.
