

# SpecialSteelStock

## WHO WE ARE

Based in the industrial town of Schio in Italy, **SpecialSteelStock** was established in 2003 as a trading branch of C.S.C. Spa, formerly called "Divisione Trading".

In 2013, to celebrate their first 10 years business activity, they decided to change name to **SpecialSteelStock**, which better identifies them and what they can offer.

The company set up was motivated by the increasing need within the market to find stocks of used special alloys such as duplex, super duplex and super austenitic. To achieve this aim while offering a high quality and reliable service, they set up partnerships with several of the major internationally renowned European steel mills. Thirty-nine years of experience combined with the expertise of the companies technicians in welding and in the use of these materials have significantly contributed to the commercial success of the business. And a highly trained sales team has enabled **SpecialSteelStock** to take orders from all over the world, boasting a customer portfolio from 52 different countries.
