

# Steel Dynamics Limited

Steel Dynamics are the Premier Specialty Metal Plate Service Centre serving a wide range of industries including Oil & Gas, Nuclear, Power Generation, Chemical and Petrochemical. Stocking and processing sheet and plate in grades 304, 316, Duplex, Super Duplex and 6 Moly we have over 300 tonnes available in stock from our 40,000 sq/ft facility in Bolton, UK. We typically stock from 0.5mm through to 100mm thick. Our processing includes Laser Cutting, Water-Jet cutting, Hi-Def Plasma Cutting and Standard Plasma Cutting. Steel Dynamics is also proud to be able to offer the largest profile cutting area from a UK metal service centre. The Bystronic Bystar 4025-8L 6Kw has a maximum cutting area of 8000 x 2500 mm and will allow us to process up to and including 25mm stainless.

## OUR MISSION

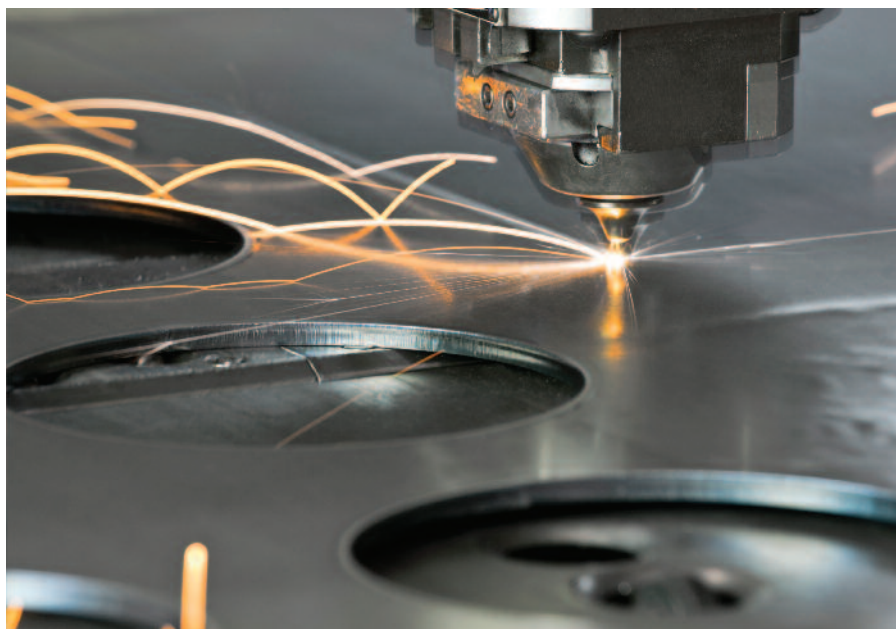

To re-define service through superior Technology, Cost and Culture

## OUR VISION

Our vision is to be world class in the eyes of our customers. Understanding

clients' aspirations and supplying them with quality processed steel solutions.
