

Zhejiang Tsingshan Steel Pipe Co., Ltd.

Zhejiang Tsingshan Steel Pipe Co., Ltd was founded in 2003, focusing on the manufacturing of stainless steel products. During the past few years, Tsingshan has become a leading manufacturer of stainless steel products in Austenitic, Duplex and Nickel-Alloy. Tsingshan is powerful in strength with a total asset of 1 billion yuan. The company is capable of manufacturing 15000 tons of steel pipes annually with its state-of-the-art production process and production and testing equipment. In addition, Tsingshan has been enjoying a high reputation since its establishment in 2003. To enhance its leadership in the stainless steel industry, Tsingshan has been constantly dedicated to quality and service advancement in a way to better serve our clients.

Tsingshan adopts an integrated marketing mode of domestic and international sales with a fully-fledged network nationwide and increasing presence in countries and regions such as America, Southeast Asia, Europe, Africa and the Middle East.

Tsingshan has been equipped with a perfect quality assurance system, and has obtained Manufacture License of Special Equipment (Pressure Piping Components), ISO9001:2008, ISO14001, ISO18001, PED, AD2000, ASME, and classification society certifications such as CCS, DNV, ABS, LR, GL RINA and GOST-R, etc.

Tsingshan products have been widely applied in industries like petroleum,

chemistry, metallurgy, shipbuilding, machinery, power, automobile, aviation, food and pharmaceutical, etc. Our product quality stays ahead in the industry at home and abroad. Currently, Tsingshan has been an access supplier of the CNPC, a qualified supplier of the CNOOC, and an excellent supplier of Dongfang Electric Corporation Dongfang Turbine Co., LTD. and Baosteel, etc. As for the external market, Tsingshan has managed to make itself a qualified supplier of The Abu Dhabi Company for Onshore Oil Operation and the KOC, etc.

We continue to provide high-quality and safe products to our customers, and place much emphasis on lean manufacturing, so as to make a win-win cooperation with customers and protect our environment. So far, Tsingshan has been favoured by many world-

renowned end users, such as Sinopec, CNPC, CNOOC, KOC, Saipem, etc.

We, Tsingshan people, will, as always, fight and struggle with enterprising spirit and perseverance for a bright future. While dedicated to the concept of professional management, Tsingshan is also committed to the path of brand-building, and constant improvement of product quality and service as well as create more value for users and society.
