

Valen Fittings Ltd

Valen Fittings is a leading manufacturer of large diameter butt-weld fittings and pipe for the Oil, Gas, Petrochemical and related industries.

Founded in 1976, we have built an enviable reputation for both the quality of our products and for our service.

We constantly strive to ensure we are attuned to market developments and we are continuously investing in new techniques and machinery. This, together with the expertise of our skilled workforce enables us to fully satisfy the increasing demands of our customers, including the manufacture of special fabrications and also short lengths of pipe up to 3mtrs in length.

We provide a specialist premium delivery service for fast track items.

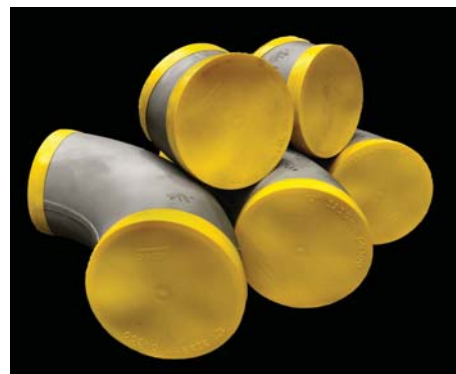

QUALITY CONTROL

The company maintains a Quality system in accordance with ISO9001.

We are also fully qualified to NORSOK M650.
