

Viraj

From a humble beginning in the year 1992 with staff strength of merely 150 and with one induction furnace, Viraj has come a long way in more than two decades. Today Viraj is one of the largest manufacturers and exporters of Stainless Steel long products in India. With turnover of USD 1.5 Billion, Viraj is exporting its stainless steel products (Wire Rods, Wires, Flanges, Fasteners, Bright Bars and Profiles) to more than 1300 customers across 90 countries spread over 6 continents. With melting capacity of 528,000 tons per annum, the company produces more than 50,000 SKUs in various grades like Austenitic, Ferritic, Martenistic, Duplex and Electrode with various specifications. The core competency of Viraj lies in its integrated manufacturing facilities which enable it to meet customer specific requirements. In 2007 Viraj was ranked as the fifth most eminent producer of stainless steel long products in the world, leaping up to third place just a year later. Year 2012 saw the inauguration of a new production unit in wires division, whilst a fully automatic rolling mill commenced operations in 2014, complemented by the establishment of the firm's Inland Container Depot in the same year. Viraj's stainless steel products see application in automobile industries, food processing industries, boilers, pressure vessels, shipbuilding, oil pipelines, petrochemical facilities, construction projects and surgical instruments – among many other means of utilisation. Viraj also functions as one of the world's largest stainless steel

flange manufacturers, which has led to the company's trusted reputation as a leading provider of flanges for marine applications. Viraj has a zero-defect approach towards quality, by having well equipped laboratories at every plant any by employing specialist teams of quality control analysts who ensure that all the products going to the customers is nothing but the best. All the plants are ISO certified and equipped with state of the art quality testing facilities. The company's strong global presence is combined with an extremely large product portfolio that encompasses a broad range of industrial applications. In many instances, Viraj operates as the sole provider in Asia for many of the products that it manufactures today, which

lends a further competitive edge to an already dynamic business. Viraj enjoys considerable export footprint factors in Europe, Asia, Africa, the Middle East, Australia and the Americas – although further expansion is at the forefront of the company's strategy. Employing 9,000 personnel across all of its divisions, Viraj Profiles Limited maintains a corporate culture that emphasises the importance of individualised, empowered development. Indeed, the company is recognised as one of the preferred employers in the industry, with comprehensive vocational training programmes that continue to refine the capabilities of its employees throughout their careers.
